3M Delivers Record Third-Quarter Earnings of \$1.65 per Share; Company Posts Sales of \$7.5 Billion and 22.4 Percent Operating Income Margins

ST. PAUL, Minn. – October 23, 2012 – 3M (NYSE: MMM) today reported record third-quarter earnings of \$1.65 per share, an increase of 8.6 percent versus the third quarter of 2011. Operating income was \$1.7 billion and operating income margins for the quarter were 22.4 percent.

"The 3M team delivered another strong operating performance in the third quarter," said Inge G. Thulin, 3M chairman, president and chief executive officer. "In the face of the current slow-growth economy, our businesses continued to grow organically and generated record profitability. All six of our businesses posted 21 percent-plus operating margins in the quarter, so we continue to execute well in 2012."

Sales were \$7.5 billion, down 0.4 percent year-over-year. Organic local-currency sales grew 2.2 percent and acquisitions added 0.5 percent to sales. Currency impacts reduced sales by 3.1 percent year-on-year.

On a business segment basis, organic local-currency sales increased 4.3 percent in Health Care, 3.3 percent in Industrial and Transportation, 1.4 percent in Consumer and Office, 1.3 percent in Display and Graphics, 0.7 percent in Safety, Security and Protection Services and 0.1 percent in Electro and Communications. On a geographic basis, organic local-currency sales grew 10.5 percent in Latin America/Canada, 2.3 percent in the United States, 0.8 percent in EMEA (Europe, Middle East and Africa) and were down 0.1 percent in Asia Pacific.

Third-quarter net income was \$1.2 billion and earnings were \$1.65 per share. Total-company operating income margins were 22.4 percent for the quarter, and free cash flow was \$987 million.

Thulin continued, "Regardless of economic conditions, we will remain focused on things within our control. 3M's unique combination of technology strength, manufacturing excellence and global capability will enable us to deliver sustainable increases in sales, earnings and cash flow."

3M also updated its 2012 performance expectations. Reflecting current economic realities, the company now expects full-year earnings to be in the range of \$6.27 to \$6.35 per share, including \$0.03 per share of anticipated acquisition-related costs. 3M previously expected a range of \$6.35 to \$6.50 per share, which did not include acquisition-related costs. The company anticipates full-year organic local-currency sales growth of 2 to 2.5 percent and that currency translation will reduce sales by approximately 2.5 percent for the year. 3M expects that full-year operating income margins will be in the range of 21.5 to 22 percent.

Forward-Looking Statements

This news release contains forward-looking information about 3M's financial results and estimates and business prospects that involve substantial risks and uncertainties. You can identify these statements by the use of words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will," "target," "forecast" and other words and terms of similar meaning in connection with any discussion of future operating or financial performance or business plans or prospects. Among the factors that could cause actual results to differ materially are the following: (1) worldwide economic and capital markets conditions and other factors beyond the Company's control, including natural and other disasters affecting the operations of the Company or its customers and suppliers; (2) the Company's credit ratings and its cost of capital; (3) competitive conditions and customer preferences; (4) foreign currency exchange rates and fluctuations in those rates; (5) the timing and market acceptance of new product offerings; (6) the availability and cost of purchased components, compounds, raw materials and energy (including oil and natural gas and their derivatives) due to shortages, divestitures, and other unusual events resulting from portfolio management actions and other evolving business strategies, and possible organizational restructuring; (8) generating fewer productivity improvements than estimated; (9) security breaches and other disruptions to the Company's information technology infrastructure; and (10) legal proceedings, including significant developments that could occur in the legal and regulatory proceedings described in the Company's

Annual Report on Form 10-K for the year ended December 31, 2011 and its subsequent quarterly reports on Form 10-Q (the "Reports"). Changes in such assumptions or factors could produce significantly different results. A further description of these factors is located in the Reports under "Cautionary Note Concerning Factors That May Affect Future Results" and "Risk Factors" in Part I, Items 1 and 1A (Annual Report) and in Part I, Item 2 and Part II, Item 1A (Quarterly Report). The information contained in this news release is as of the date indicated. The Company assumes no obligation to update any forward-looking statements contained in this news release as a result of new information or future events or developments.

(a) The changes in 3M's defined-benefit pension and postretirement plans' funded status as of December 31, 2011 (primarily due to a decrease in discount rates) significantly impacted several balance sheet lines. These changes increased long-term liabilities by approximately \$2.4 billion and decreased stockholders' equity by approximately \$1.6 billion, with the other major impact primarily related to increased deferred taxes within other assets. Other pension and postretirement changes during the year, such as contributions and amortization, also impacted these balance sheet captions.

(b) Free cash flow is not defined under U.S. GAAP. Therefore, it should not be considered a substitute for income or cash flow data prepared in accordance with GAAP and may not be comparable to similarly titled measures used by other companies. The company defines free cash flow as net cash provided by operating activities less purchases of property, plant and equipment. It should not be inferred that the entire free cash flow amount is available for discretionary expenditures. The company believes free cash flow is a useful measure of performance and uses this measure as an indication of the strength of the company and its ability to generate cash.

OTHER NON-GAAP MEASURES:		
Net Working Capital Turns (c)	4.7	4.9

(c) The company uses various working capital measures that place emphasis and focus on certain working capital assets and liabilities. 3M's net working capital index is defined as quarterly net sales multiplied by four, divided by ending net accounts receivable plus inventory less accounts payable. This measure is not recognized under U.S. GAAP and may not be comparable to similarly titled measures used by other companies.
