Optional Make-Whole Redemption:

Each of the 1.625% Notes due 2019 and the 3.875% Notes due 2044 will be redeemable at any time, in whole or from time to time in part, at our option at a redemption price equal to the greater of

- 100% of the principal amount of the notes to be redeemed, and
- as determined by the quotation agent (as defined below), the sum of the present values of the remaining scheduled payments of principal of and interest on the notes to be redeemed (not including any interest accrued to the redemption date) discounted to the redemption date on a semi-annual basis assuming a 360-day year consisting of twelve 30-day months at the treasury rate (defined below) plus, in the case of the 1.625% Notes due 2019, 5 basis points, or in the case of the 3.875% Notes due 2044, 12.5 basis points

plus, in the case of both clauses above, accrued and unpaid interest on the notes to be redeemed to the redemption date.

“**Treasury rate**” means, with respect to any redemption date, the annual rate equal to the semi-annual equivalent yield to maturity of the comparable treasury issue, assuming a price of the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for that redemption date.

“**Comparable treasury issue**” means the United States Treasury security selected by the quotation agent as having a maturity comparable to the remaining term of notes to be redeemed that would be utilized, at the time of a selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes to be redeemed.

“**Comparable treasury price**” means, with respect to any redemption date, (i) the average of at least three reference treasury dealer quotations for that redemption date, after excluding the highest and lowest of five or more reference treasury dealer quotations, or (ii) if the Trustee obtains fewer than five reference dealer quotations, the average of all reference treasury dealer quotations so obtained.

“**Quotation agent**” means the reference treasury dealer appointed by the Company.

“**Reference treasury dealer**” means (i) each of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Morgan Stanley & Co. LLC and their respective successors; however, if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a “**primary treasury dealer**”), the Company will substitute another primary treasury dealer; and (ii) any other primary treasury dealer(s) selected by the Company.

“**Reference treasury dealer quotations**” means, with respect to each reference treasury dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by the reference treasury dealer at 5:00 p.m., New York City time, on the third business day preceding the redemption date.

In the case of a partial redemption of either the 1.625% Notes due 2019 or the 3.875% Notes due 2044, selection of the notes for redemption will be made pro rata, by lot or such other method as the Trustee in its sole discretion deems appropriate and fair. The notes will be redeemed in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Notice of any redemption will be mailed by first class mail at least 30 days but not more than 60 days before the redemption date to each holder of the notes to be redeemed at its registered address. If any notes are to be redeemed in part only, the notice of redemption that relates to such notes will state the portion of such notes to be redeemed. New notes in principal amounts of at least \$2,000 equal to the unredeemed portion of the notes will be issued in the name of the holder of the notes upon surrender for cancellation of the original notes. Unless the Company defaults in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or the portions of the notes called for redemption.
